

THE EAR OF THE LEADER MUST RING WITH THE VOICES OF THE PEOPLE.

WOODROW WILSON

THE LACK OF EFFECTIVE HEALTH CARE coverage is one of the most important issues facing our nation. Nearly 50 million Americans have no coverage at all! Many more have coverage that does not provide for their basic health and long-term care needs. The problem is especially acute for Americans with a chronic disease or disability — the people we represent.

We support health care that

- ▶ Covers everyone
- ▶ Curbs costs responsibly
- ▶ Abolishes exclusions for pre-existing conditions
- ▶ Eliminates lifetime caps
- ▶ Ensures long-term and end-of-life care

On behalf of the more than 133 million people with chronic diseases and disabilities and their family caregivers, we urge the Administration and Congress to enact specific solutions that guarantee effective and affordable health and long-term care coverage for all Americans.
