## Voluntary Health Agencies

Voluntary health agencies are defined as 501(c)(3) organizations composed of individuals, both lay and professional, or of associations of both lay and professional individuals, voluntarily and democratically organized. Their mission is to combat a particular disease, disability, or group of diseases and disabilities, or to improve and protect the health of a particular group of people. They receive a substantial amount of financial support from voluntary contributions from the public at large. They engage in programs, such as research, education, advocacy, and service to individuals and communities.
